Sensitivity: Private

Please file the attached emergency filing documents in docket 25-5592.

Due to the size of these scanned files (wet signatures are required for pro se), this filing has been split into two emails of which this is the first, and the second will immediately follow.

Please note that in my rush to submit the emergency motion I emailed last night, I accidentally used a document template which contained my old (expired) address block. Please correct or replace that copy with the address-corrected copy attached. Note every page is identical except the final signature page, so you can simply replace the last page or the entire filing with this corrected document.

I swore to the contents of this address-corrected copy in the attached certificate of service with "address-correction" in the file name.

Thank you.

I'm sorry, I thought they were in a flat secure format.

I just checked them and only two (overall) had security features enabled. I corrected those by disabling all security.

Please file these as requested; none of them have any security active.

If you need them converted into a different format, please let me know what exact specifications they must meet, and I will gladly replace them again if you need.

Thanks.

Subject: 25-5592: FENTON DECLARATIONS & FILINGS SUPPORTING EMERGENCY MOTION (Email 1 of 2)

Importance: High

Sensitivity: Private

Please file the attached emergency filing documents in docket 25-5592.

Due to the size of these scanned files (wet signatures are required for pro se), this filing has been split into two emails of which this is the first, and the second will immediately follow.

Please note that in my rush to submit the emergency motion I emailed last night, I accidentally used a document template which contained my old (expired) address block. Please correct or replace that copy with the address-corrected copy attached. Note every page is identical except the final signature page, so you can simply replace the last page or the entire filing with this corrected document.

I swore to the contents of this address-corrected copy in the attached certificate of service with “address-correction” in the file name.

Thank you.

I'm sorry, I thought they were in a flat secure format.

I just checked them and only two (overall) had security features enabled. I corrected those by disabling all security.

Please file these as requested; none of them have any security active.

If you need them converted into a different format, please let me know what exact specifications they must meet, and I will gladly replace them again if you need.

Thanks.
