Please file the attached motion, declaration, and supporting document in docket 25-5592.

They are due today.

I'm unsure how many emails it will take me to delivery this, so I will number them sequentially starting with 1.

Please see the attached motion inventory (supporting documents and exhibits).

The defendants counsel has been openly carbon copied on this message for simultaneous notice.

Please allow 72 hours for me to get these document linked from my website.

Thank you.

THIS IS THE FINAL EMAIL IN TODAYS FILING.

Please file the attached motion, declaration, and supporting document in docket 25-5592.

They are due today.

I'm unsure how many emails it will take me to delivery this, so I will number them sequentially starting with 1.

Please see the attached motion inventory (supporting documents and exhibits).

The defendants counsel has been openly carbon copied on this message for simultaneous notice.

Please allow 72 hours for me to get these document linked from my website.

Thank you. Thanks.

✧✧✧ PLEASE FILE CORRECTED EXHIBITS: EMAIL 1 of 7 ✧✧✧

Yesterday I ran out of time before creating title pages for each of the supporting exhibits. Now I have corrected those exhibits, hopefully before the court has scanned in the documents, in which case I request they please replace all the supporting attached exhibits I emailed yesterday (not having title pages) with the ones I'm sending currently herein and in subsequent emails, which include title pages. If anyone is concerned about anything substantive having been changed in any of those exhibits, I can offer my personal assurance that has not happened, while that is also easy to verify by comparing the documents against the active PACER record online. If this still remains a concern for the court or any counsel, I have also included the compiled and individual title pages by themselves, for each and every exhibit, which can easily be attached as page one to every exhibit (I sent yesterday) in accordance with the document inventory provided. I ask that the court kindly use these title pages to clarify my exhibits filed yesterday or simply use the exhibits I'm providing currently in place of them with title pages already intact.

There is no need to replace yesterday's motion, declaration, or document inventory, because those documents were not altered. I have, however; included those document again with today's batch, to keep the set together for easier finding and reference in the future.

I made a few tiny corrections to the file naming syntax used yesterday, for the sake of uniformity, where I

believe that a couple of the exhibit suffixes were backwards and needed to be swapped around. I believe this had to do with the suffixes I had to divide into two sets, such as k1 and k2, or s1 and s2, I seem to remember one or both of those were labeled backwards.

I also divided the email attachments today into seven separate emails, mostly 20MB or less, in hopes of preventing problems with email services that have more restricted file capacities and limits, for what customers are allowed to receive.

If anyone experiences any difficulty receiving, opening, or working with any file I have sent, please immediately let me know and I will work to quickly resolve the problem.

The defendants counsel has been openly carbon copied on this message for simultaneous notice.

Please allow 72 hours before I will have all of this information updated and available on my website, for public access anytime you need.

Thank you.

✧ ✧ ✧ PLEASE FILE CORRECTED EXHIBITS: EMAIL 7 of 7 ✧ ✧ ✧

Yesterday I ran out of time before creating title pages for each of the supporting exhibits. Now I have corrected those exhibits, hopefully before the court has scanned in the documents, in which case I request they please replace all the supporting attached exhibits I emailed yesterday (not having title pages) with the ones I'm sending currently herein and in subsequent emails, which include title pages. If anyone is concerned about anything substantive having been changed in any of those exhibits, I can offer my personal assurance that has not happened, while that is also easy to verify by comparing the documents against the active PACER record online. If this still remains a concern for the court or any counsel, I have also included the compiled and individual title pages by themselves, for each and every exhibit, which can easily be attached as page one to every exhibit (I sent yesterday) in accordance with the document inventory provided. I ask that the court kindly use these title pages to clarify my exhibits filed yesterday or simply use the exhibits I'm providing currently in place of them with title pages already intact.

There is no need to replace yesterday's motion, declaration, or document inventory, because those documents were not altered. I have, however; included those document again with today's batch, to keep the set together for easier finding and reference in the future.

I made a few tiny corrections to the file naming syntax used yesterday, for the sake of uniformity, where I believe that a couple of the exhibit suffixes were backwards and needed to be swapped around. I believe

this had to do with the suffixes I had to divide into two sets, such as k1 and k2, or s1 and s2, I seem to remember one or both of those were labeled backwards.

I also divided the email attachments today into seven separate emails, mostly 20MB or less, in hopes of preventing problems with email services that have more restricted file capacities and limits, for what customers are allowed to receive.

If anyone experiences any difficulty receiving, opening, or working with any file I have sent, please immediately let me know and I will work to quickly resolve the problem.

The defendants counsel has been openly carbon copied on this message for simultaneous notice.

Please allow 72 hours before I will have all of this information updated and available on my website, for public access anytime you need

Thank you.
